

STEIGER

ANNO 1994

From unique, one-off pieces to small series production, we **manufacture** not only individual components but also **complete machines** with full mechanical assembly.

Certificates

- EN 1090-2:2018, EXC4
- EN ISO 3834-2,
- EN 15085-2,
- EN ISO 9001:2015,
- EN ISO 14001:2015,
- ISO 45001:2023

Main fields of activity (products / services)

Manufacturing and installation of custom made welded and machined steel products like:

- Industrial filtration equipment
- Wave generator
- Transformer housings
- Bagging machine
- Machine bed for rail bending machine
- Track for pilot training machine
- Satellite transport units
- Structures used in aircraft assembly
- Machine bed accessories
- Chassis of tracked transporters for tunnel boring machines, etc.

At Steiger SRL, we achieve flatness and straightness over a length of 10 meters, within a **tolerance of 0.05 mm**

Strength

- Unique parts manufacturing
- Co-Design Support
- Full-cycle production
- Certified Welding & Quality Systems

Key success factors

- Unique assemblies Manufacturing (extra-large components, High-precision machining, Full-cycle production, installation)
- Certified Welding & Quality Systems (EN1090, ISO3834, EN15085, ISO 9001, ISO14001, ISO45001)
- Flexibility, Customization & Co-Design Support
- Family Ownership & Continuity
- Strategic International Relationships

Steiger SRL is a family-owned company specialized in the **manufacturing of customized welded and machined steel structures**, precision tools, and assembly fixtures for the aerospace, railway, and electrical industries.

We are equipped to handle mechanically welded components up to

**12 meters in length and
25 tonnes in weight,**

making us a trusted partner for large-scale, high-precision industrial projects. Our state-of-the-art, European-made machinery ensures consistent accuracy and performance across all our operations.

Reference works - EU

Handling carriage

- **Weight** (ton): >20t (24 pieces)
- **Dimensions** (mm): 2500 x 2238 x 497mm
- **Short description/Extras**: chassis for railway maintenance equipment
- **Client/Country**: FR

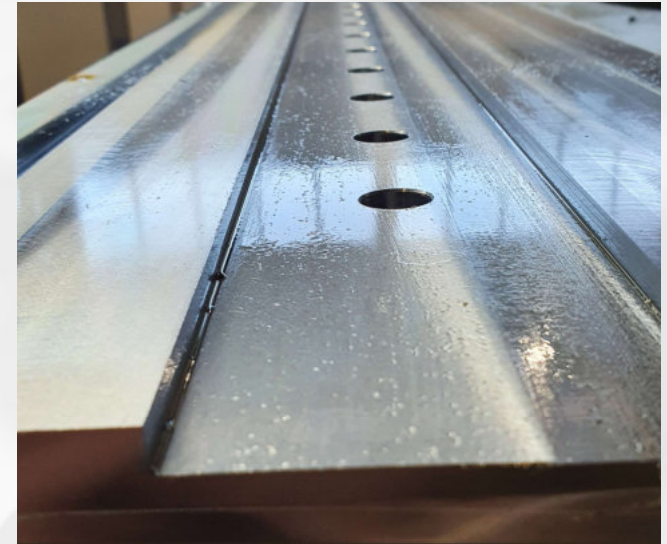

Reference works - EU

Wave generator

- **Weight** (ton): >51
- **Dimensions** (mm): 10800x6035x7715
- **Short description/Extras**: mounted on site
- **Client/Country**: Bosch Rexroth - NL

Reference works - EU

Transformer housings

- **Weight (ton):** >15t
- **Dimensions (mm):** 8.000 x 2.800 x 3.000
- **Short description/Extras:** Transformer Housing
- **Client/Country:** HU

Reference works - EU

Special Transport Device

- **Weight (ton):** > 24t
- **Dimensions (mm):** 13000 x 4800 x 2800mm
- **Short description/Extras:** Special coil transport device
- **Client/Country:** FI

Reference works - EU

X-Tracks

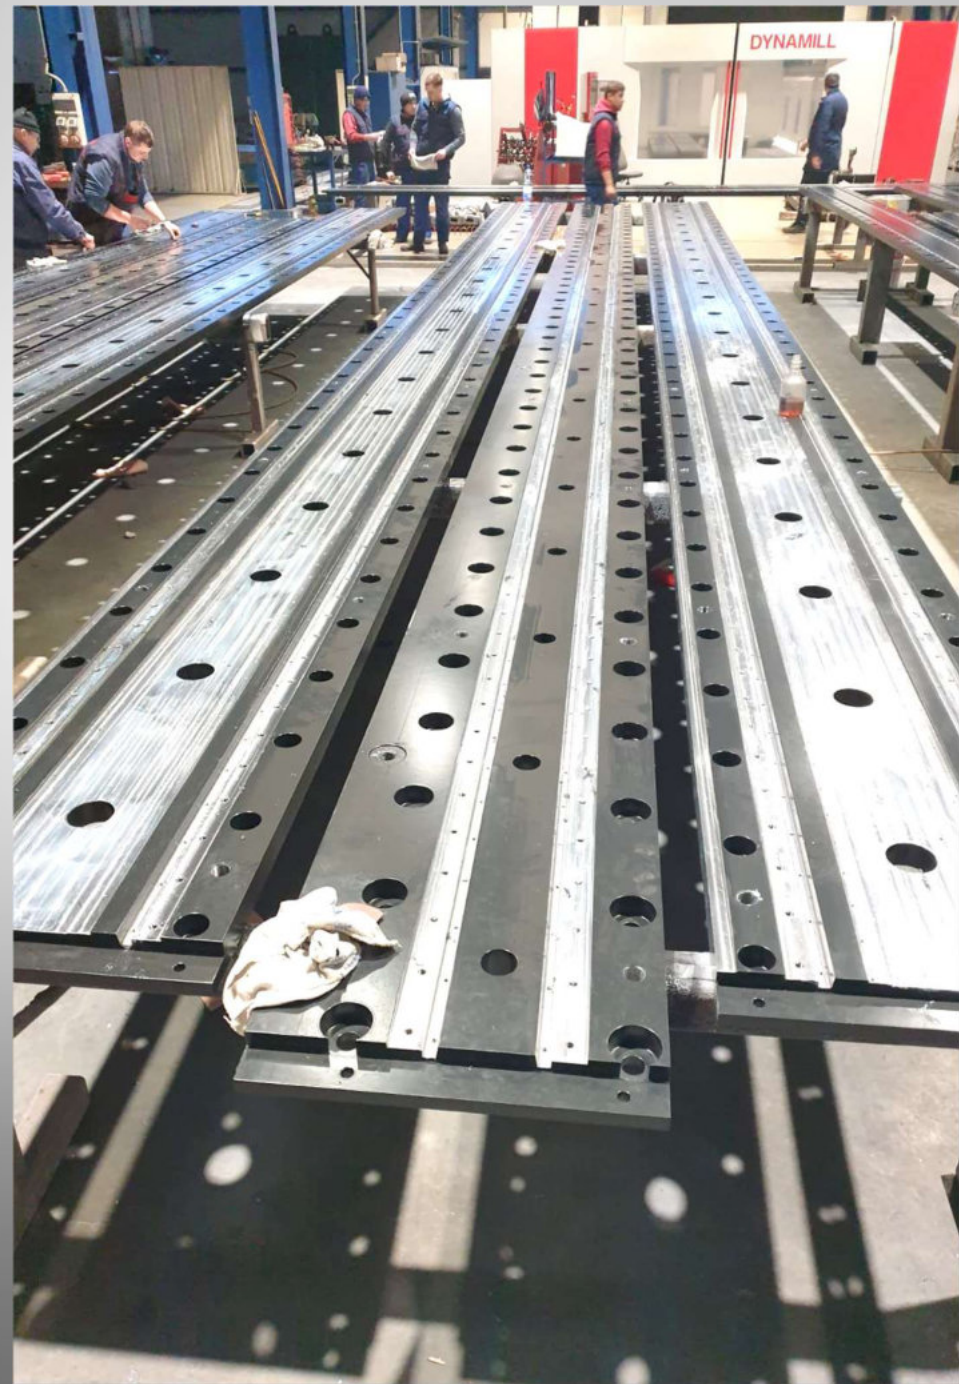

Weight (ton): >32 to

Dimensions (mm): 81000 x 450 x 50mm

Short description/Extras: Base plates for pilot simulator

Client/Country: NL

Reference works - EU

Container Mover

- **Weight (ton):** > 5t
- **Dimensions (mm):** up to 13000 x 3000 x 2500mm
- **Short description/Extras:** Container Mover Device
- **Client/Country:** FI

Reference works - EU

Special transport device

- **Weight** (ton): >8t
- **Dimensions** (mm): 19000 x 2000 x 1500mm
- **Short description/Extras:** Special transport platform
- **Client/Country:** FI

Reference works - EU

Tyre industry machined parts

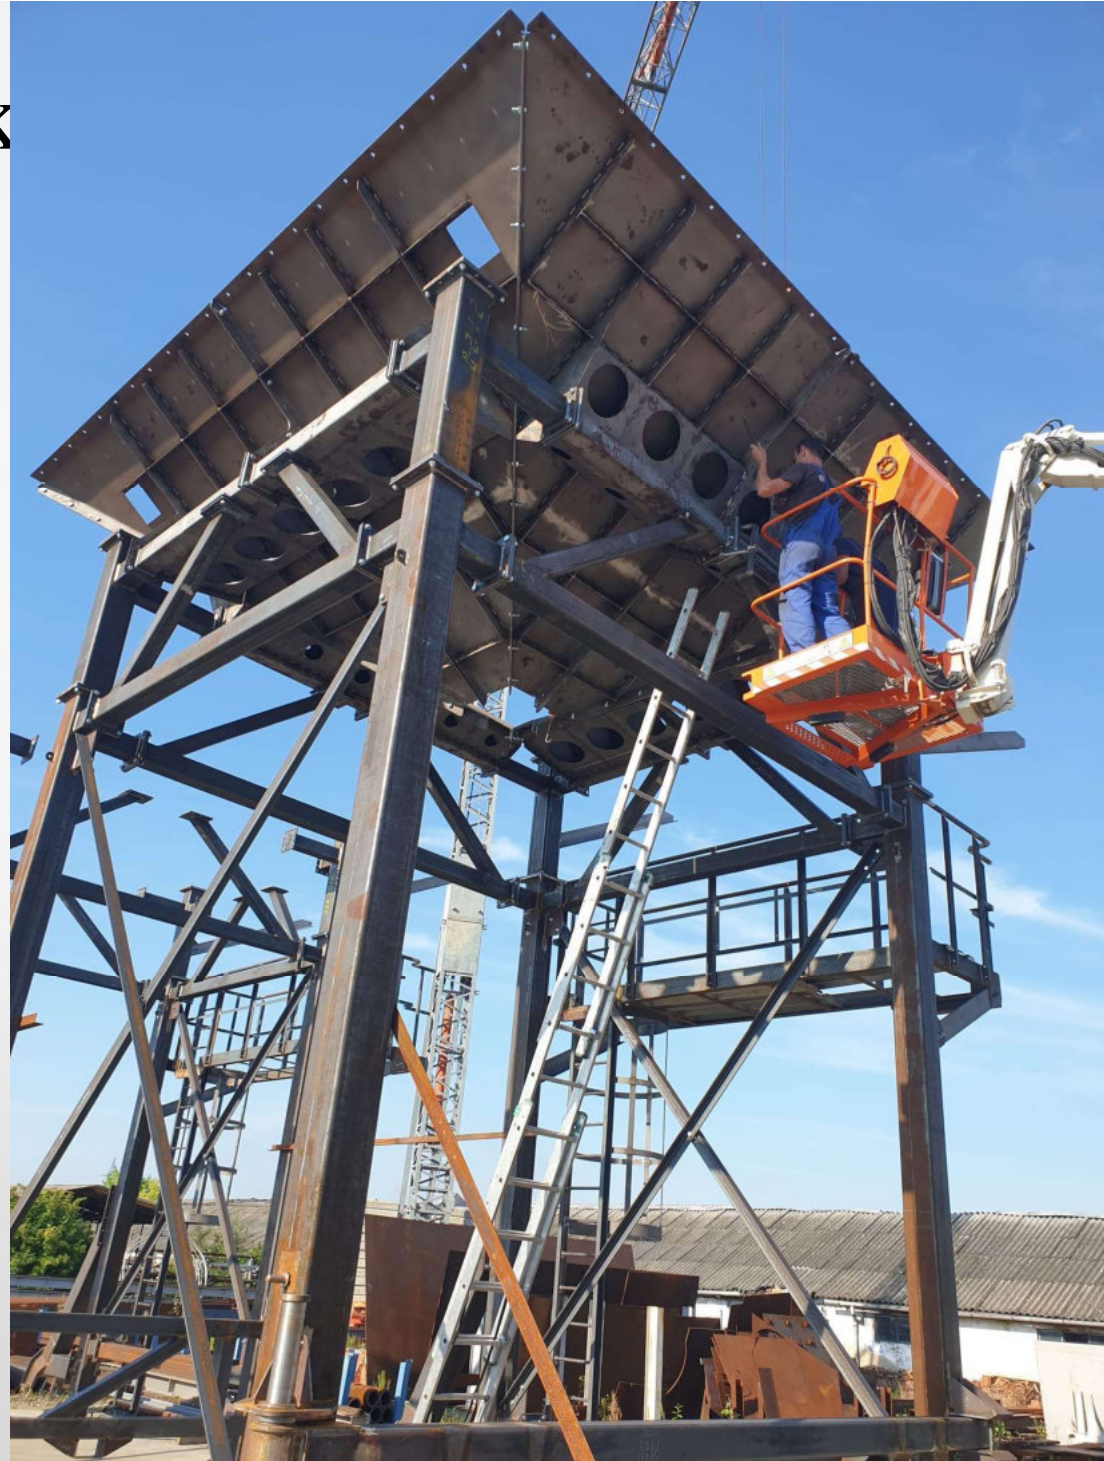

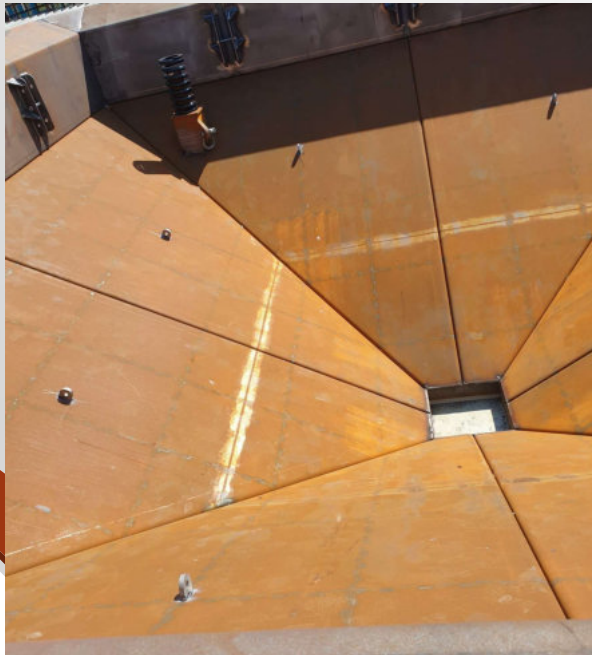

- **Weight (ton):** > 10t
- **Dimensions (mm):** 6000 x 4000 x 3000mm
- **Short description/Extras:** Tyre making machines
- **Client/Country:** Michelin, FR

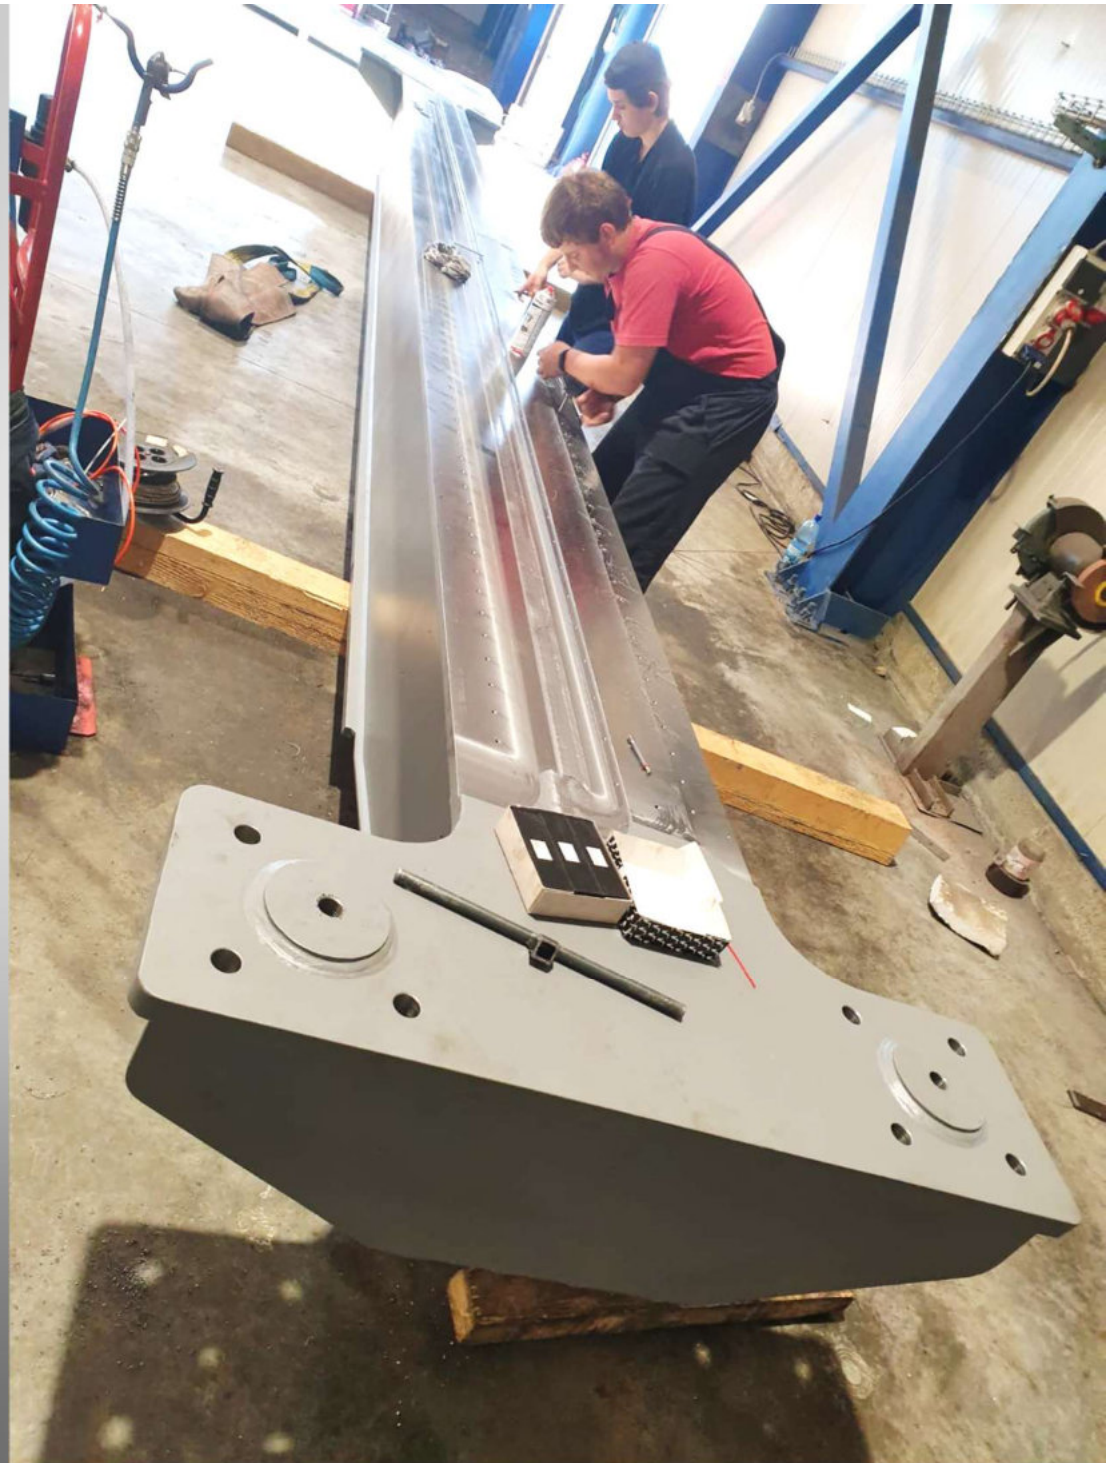

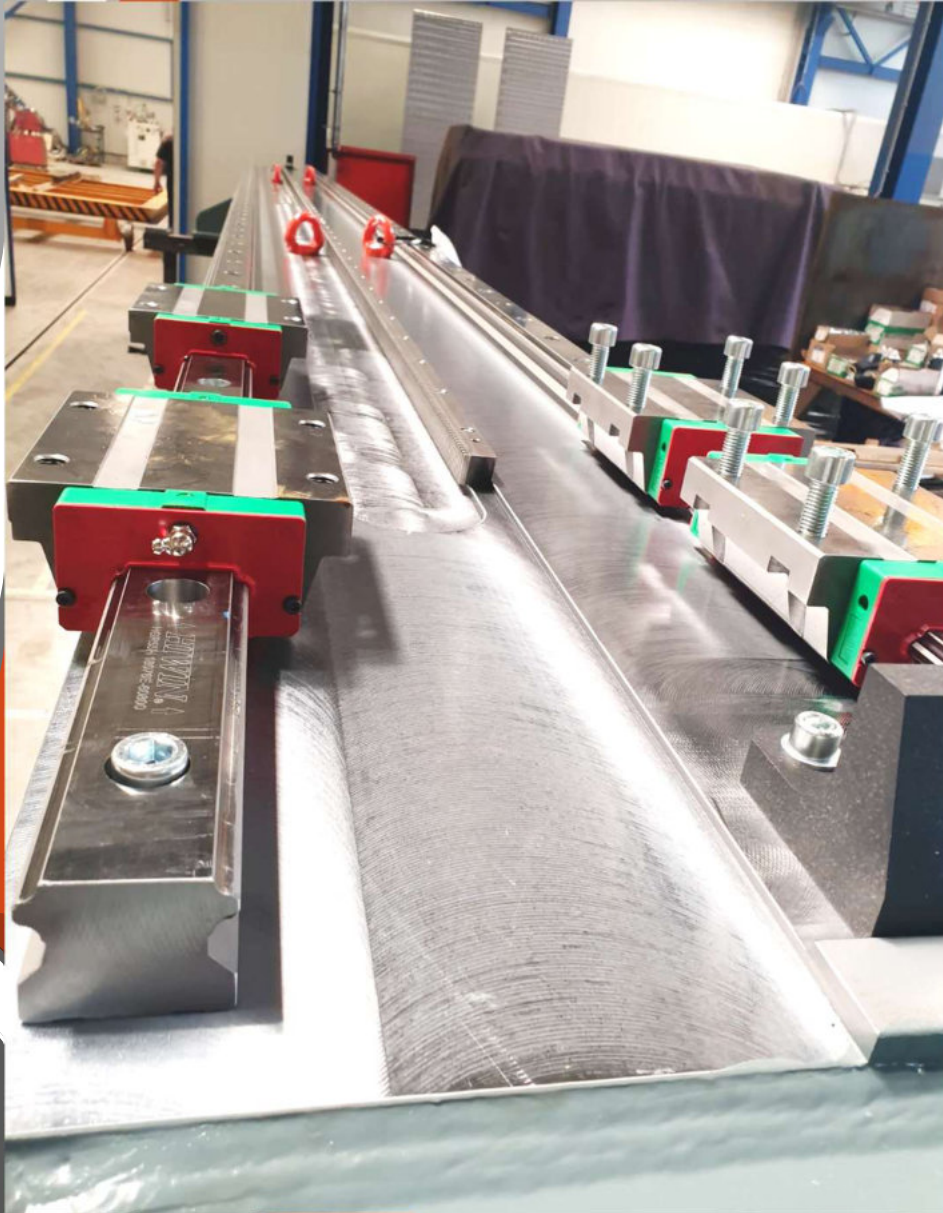

Reference work

Hoppers for naval discharge of ships in ports

- **Weight (ton):** > 40t
- **Dimensions (mm):** 12000x6000x6000mm
- **Short description/Extras:** Hoppers and containers for storing exchange products
- **Client/Country:** Mulcon, NL
